China Premium Database

Whether for research or investment purposes, CEIC Data's China Premium Database offers users a wealth of information on the performance of various sectors and industries in the Chinese market.

With records starting as early as 1949, the China Premium Database is updated constantly by analysts with connections to primary sources on the ground in China. With such an abundance of statistics, the database makes it easy for you to quickly find information to make decisions that are intelligent, accurate, and timely.

CEIC Data's China Premium Database is available in both English and Chinese and can be accessed through CDM, CEIC's easy to use platform. CDM's excel plug-in feature allows rapid downloading and easy refresh of data series, ensuring your files contain the latest data.
