

The CEIC Sector Database, a leading industry database, provides the fiscal, supplementary and operational time series for 13 major sectors – the Automobile, Aviation, Banking, Electronic, Insurance, Iron & Steel, Metal & Mining, Oil & Gas, Pharmaceutical & Biotech, Property, Semiconductor, Shipping & Port, and Telecommunication sectors.

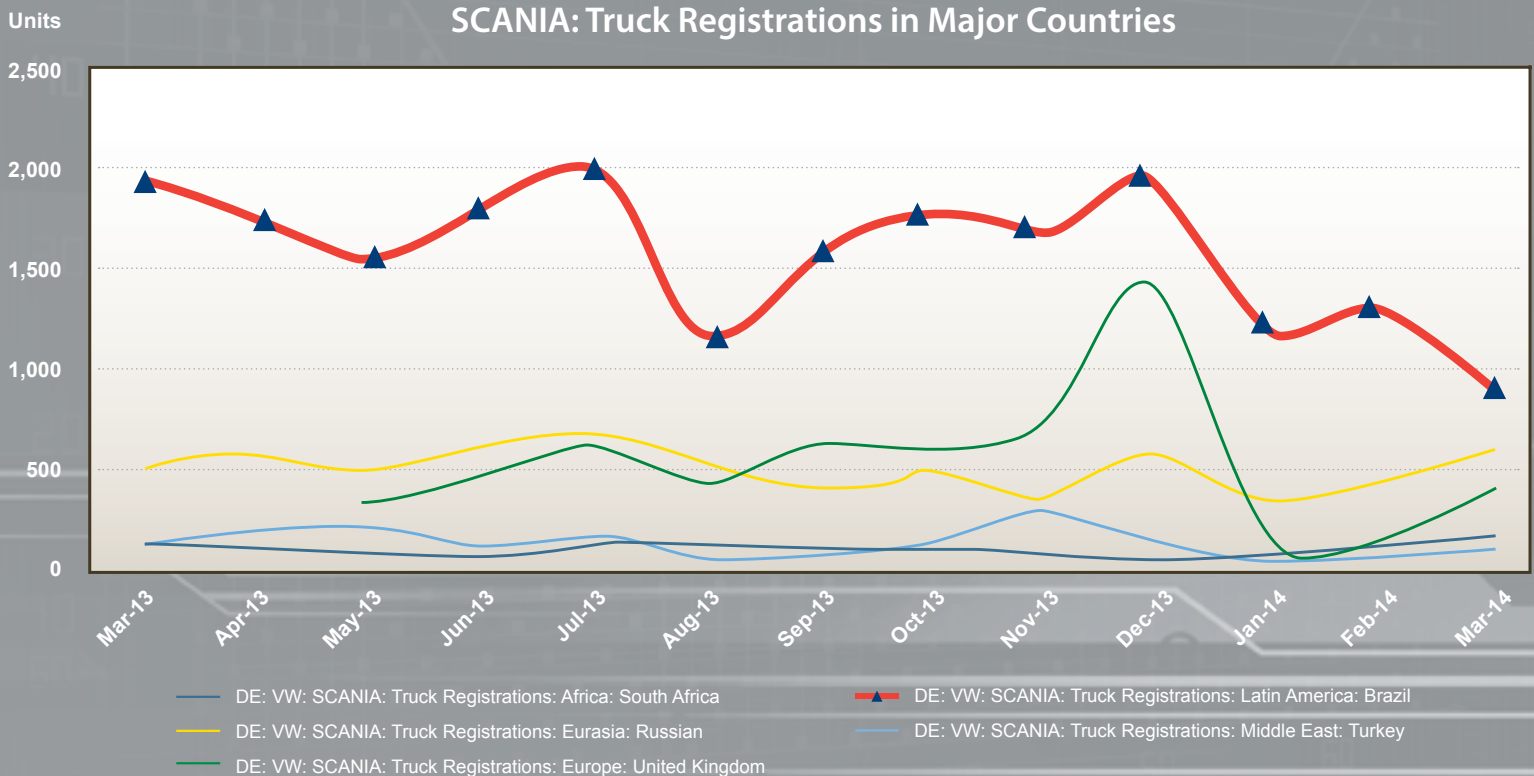

- The most comprehensive financial and operational statistics on the top 10 companies in the Non Asia, Asia Ex-China, and China regions respectively are ranked based on the latest total asset value
- Associations statistics include data sourced from Bank for International Settlements (BIS), World Steel Association (Worldsteel), Organization of the Petroleum Exporting countries (OPEC) and World Semiconductor Trade Statistics (WSTS), Baltic Indices
- Detailed association data provides a clear picture of the industry in a particular country, as well as enables cross country comparison and performance measurement
- For CEIC Global Database users, the sector database is the perfect additional database to complement their work
- With operational and financial company data displayed in a time-series format, details are available to analyze the performance of a company itself or compare with both their peers or the industry
- Allows for monitoring of industry sector performance from a global perspective
- Provides timely and easy to locate statistics for focus countries organized by industry sector
- Data is from the same highly credible sources that CEIC knows and trusts

Automobile	Includes detailed Vehicle Production and Sales by Model data of individual automobile companies updated monthly
Aviation	Covers the world busiest airports in 15 countries. Includes operating data, passenger data, freight handled statistics and much more
Banking	Locational, Consolidated and Securities Banking statistics are available and sourced from Bank for International Settlements (BIS)
Iron & Steel	World Steel Association datasets recorded as early as 1967, contains production, consumption and trade statistics by region and by country
Metal & Mining	U.S. Geological Survey (USGS) datasets include production and reserve breakdowns by country for major commodities like Aluminum, Bauxite, Copper, and Nickel
Oil & Gas	Provides OPEC and BP statistics, as well as Baker Hughes Rotary Rig Counts
Semiconductor	Datasets on net billings, shipments and average selling prices sourced from World Semiconductor Trade Statistics (WSTS) available with detailed product breakdowns
Shipping & Port	Baltic Indices and Hamburg Shipbroker Association (VHSS) – provides indices and charter rates based on ship types and sizes such as dry, capesize, panamax, supramax, handysize and tanker

- Structural changes within an industry both global and regional level. Top industry players within each industry are ranked and updated every quarter, taking into account mergers and acquisitions within an industry
- Special focus on Chinese industries and data for key industry and country players in each sector
- Individual country's contribution and impact to each industry at a global level. For example, share and production trends of crude steel in India, Russia, Brazil, and China vis-à-vis global steel industry trends

USE CEIC'S SECTOR DATABASE TO ANALYZE AND COMPARE GLOBAL INDUSTRY PERFORMANCE
